**WILGARD® RACK PROTECTORS**

**WILGARD XT**

**(XT) Extra Tough** rack protectors to provide heavy-duty barrier protection in high traffic areas.

**WILGARD MT**

**(MT) Medium Toughness** for adequate rack protection against forklifts in everyday use.

**WILGARD LT**

**(LT) Lighter Toughness** that provides a low-cost alternative to no rack protection at all.

**WILGARD**

**XT MT LT**

## Rack Protectors

- **One Tough Family**
- **Three Levels of Protection**
- **The Choice Is Yours**

To meet your facility safety and budget requirements, Wildeck now offers three levels of End-of-Aisle Rack Protection. Wilgard® XT (XTra Tough), MT (Medium Toughness), and LT (Lighter Toughness) End-of-Aisle Rack Protectors provide three powerful choices to protect rack and inventory from the punishment that your carts, pallet jacks, and forklifts dish out every day.

Wilgard® rack protectors are 'Made-in-USA' and secure into concrete floors with industrial steel anchors (hardware pack included). They are available as 'Right-' or 'Left-Side' protectors, or as a combined 'Double-Headed' rack protector. *It's a level of protection you won't find anywhere else.*

# GENERAL SPECIFICATIONS
